

SANTIAGO PAULIN

Data Engineer / Business Analyst / Financial Analyst

Cordoba, Argentina | santipaulin97@gmail.com | LinkedIn: @santiagopaulin

Professional Summary

Data Engineer and Financial Analyst with strong experience across analytics, reporting, and data-driven decision-making. Solid business background with advanced technical skills in Python, SQL, ETL pipelines, and cloud data platforms. I have worked in global companies such as Accenture, PFS Global (USA), and Mercado Libre, where I currently contribute to large-scale data engineering initiatives.

Lead financial reporting processes, optimized revenue recognition under US GAAP, built automated dashboards, and managed end-to-end ETL workflows that support strategic, operational, and financial areas. Attention to detail, and ability to translate complex data into actionable insights.

TECHNICAL SKILLS

ETL	SQL	PySpark	SAP
DataBricks	Python	DBT	QuickBooks
AirFlow	Google Cloud	BigQuery	SalesForce

PROFESSIONAL EXPERIENCE

Data Engineer — Mercado Libre (Latin America)
